

## Senior Project Manager

*C-RAD is a global medical device company with head quarter in Uppsala. We develop, produce and sell innovative solutions to healthcare customers. The focus is on patient positioning, monitoring and imaging within radiation therapy. We are market leader in the field of optical patient positioning. C-RAD is a stock listed company at NASDAQ OMX Nordic Exchange. C-RAD group consists of three daughter companies in Sweden and sales offices in the USA, Germany, France and China. C-RAD is ISO 13485 certified.*

*We are currently looking for a **Senior Project Manager** to strengthen our development team.*

## Join C-RAD to fight cancer – in Uppsala

Our products enables precision health through positioning and monitoring of patients in radiation therapy, which maximize the dose in tumours and minimize the dose in surrounding tissues.

We are now strengthening our development team in Uppsala with a Senior Project Manager. The task of the development team is to develop and integrate world class systems to our patient positioning and monitoring products for radio therapy.

As a senior project manager, you will lead the planning and execution of cross-functional development projects to deliver products to the market within the scope, time and cost agreed with the stakeholders and according to our quality management system.

In this senior position you will also take on a supervisor role to drive, set, maintain and improve processes and tools for efficient project management within the company and manage the project portfolio.

## Your profile

- MSc in Computer Science, System engineering, Physics or related discipline, or equivalent working experience.
- Documented strong experience in project management with cross-functional teams
- Strong leadership skills – perceived as a project management “go-to”-person
- Documented experience in partner interactions
- Team Player with excellent interpersonal and communicative skills
- Structured, driven, self-motivated and professional
- Solution oriented approach, positive and service minded
- Fluent in English and Swedish

## Desired skills and experience

- Experience in software/system development
- Experience in portfolio management
- Experience working within a QMS and project development model
- Knowledge about iterative development
- Experience working with medical device products

## What we are offering for you

- Key position in an innovative, fast growing company with a great team spirit
- A fun and constantly changing work environment with skilled colleagues and exciting projects with new technologies
- A dedicated team within a global organization
- Short decision-making processes supporting an efficient working environment
- Attractive possibilities for self-development and career progression
- Competitive compensation package

## Next steps

If this position is of interest, please send us your application including a CV. Interviews are being held on a current basis, please send in your application as soon as possible.
